Commitments

Media Technology section

During 2015/2016 I was the Secretary and Working environment representative in the board of the Media Technology section. Besides the general Secretary work as taking minutes of meetings I was also responsible for organizing the fall- and spring meeting for our approximately 200 members together with the chairperson. As the Working Environment representative I took care of the student welfare and all working environment related issues concerning the section.

Reception & introduction of new students

During spring 2014 I had the opportunity to work with the reception and welcoming activities for new students in the section. I was responsible for all the scheduled activities during the two first weeks for the new students, a work that is done together across sections to create a great introduction for new students. Thanks to a well-organized reception our campus has previously been elected the best student city in Sweden by Swedes united student unions (Sveriges förenade studentkårer) in 2013.

Other

Spare time

I like to spend time with friends on my spare time. I also like to work out and paint and take photos.
